

## Apprenticeships at Concise

**Do you want to learn new skills? Earn while you build a career in IT? Be part of an awesome team and have fun?**

We want to work with College leavers with lots of initiative, who want to start a career in IT and look for different educational paths. We can show you that young people can succeed without going to university and without student debt.

Through a series of training programmes, coaching and mentoring and on the job experience you'll gain loads of transferable skills to support you in building a long term careers with us.

Work with awesome people, great technology and loyal clients.

### **Qualifications gained:**

- Advanced Apprenticeship Infrastructure Technician Level 3
- MTA Networking fundamentals
- MTA Mobility and Devices Fundamentals
- MTA Cloud fundamentals
- Choice of Microsoft MOC on demand course

### **What we need to see in you**

- Enthusiasm for IT
- Initiative and self-motivation
- Strong interpersonal and communication skills
- Customer service focussed with ability to prioritise
- Adaptable, with a continuous improvement mind-set.
- Ability to work well in team environment

### **Progression**

Your career doesn't have to stop with the Technical apprenticeship, there's opportunities to progress to other roles within Concise.
